CS585/685 Paper Presentation Rubrics (for reference)

Criteria	Pts
News Introduce a recent blockchain news that you find interesting (within 5 minutes).	5 pts
Background Describe the background and motivation, such as the basic domain knowledge the audience would need and existing work.	5 pts
Goal Describe the main goal or objectives of the paper. This can also be a problem description.	5 pts
Methodology Explain the paper's methodology, which may appear in one or several of the following forms: 1) problem formulation, 2) modeling + analytical process, 3) architecture/mechanism design, 4) cause of vulnerability + attack process, etc.	15 pts
Evaluation Describe the implementation and evaluation methods and results, key insights (if any), and how they correlate to the previously proposed analyses or design objectives. If there is little or no evaluation, describe how you would evaluate the system.	10 pts
Conclusion Summarize the paper's main contributions as a conclusion.	5 pts
Comment Discuss your own critical thought and other students' comments (from Canvas discussions, if you find interesting) on the paper's limitations, room for improvement, alternative methods, ethical concerns, potential application to other fields, etc.	10 pts
Clarity Overall clarity of presentation.	5 pts
Total Points: 60
